

# User Manual To Mastercam X4

## Chapter 1 : User Manual To Mastercam X4

This is a 3-day class. this class covers basic mastercam configuration, setup and user interface, how to import, create, clean up and modify geometry for machining purposes. Computer-aided manufacturing (cam) is the use of software to control machine tools and related ones in the manufacturing of workpieces. this is not the only definition for cam, but it is the most common; cam may also refer to the use of a computer to assist in all operations of a manufacturing plant, including planning, management, transportation and storage.
